SUMMARY

Full-Stack Developer with 3+ years of experience building and shipping scalable web applications. Proficient in the MERN stack, TypeScript, Docker, and CI/CD workflows. Experienced in payment gateway integration, REST API design, and frontend performance optimization. Comfortable working across the full development lifecycle — from architecture to production deployment.

EDUCATION

Sir Syed University of Engineering & Technology (SSUET)
Bachelor of Science — Cloud Computing & Information Science

Karachi, Pakistan
Sep 2025 – Present

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, Python, SQL
Frameworks:	React, Next.js, Node.js, Express.js, Tailwind CSS, Redux, Vite
Developer Tools:	Git, Docker, VS Code, Postman, GitHub Actions
Databases:	MongoDB, Oracle Database, Prisma ORM
Cloud / DevOps:	AWS (Fundamentals), Cloudinary, CI/CD Pipelines
Other:	RESTful APIs, JWT Authentication, Payment Gateway Integration

EXPERIENCE

Full-Stack Developer

Jan 2026 – Apr 2026

NEXAGON AGENCY — Greater London, United Kingdom

- Built and maintained scalable web applications using the MERN stack across frontend and backend systems.
- Integrated secure payment gateways with reliable transaction handling and error recovery.
- Implemented Docker-based containerization for consistent development and production environments.
- Designed and documented RESTful APIs consumed by web and mobile clients.
- Resolved production incidents and improved load times through targeted performance optimization.

Full-Stack Developer

Jan 2025 – Apr 2026

Core4Technologies Pty Ltd

- Developed and deployed full-stack web applications and landing pages using the MERN stack with Redux.
- Built responsive interfaces and integrated third-party components to improve user engagement.
- Managed version control and maintained CI/CD pipelines using Git and GitHub Actions.
- Collaborated cross-functionally with designers and product leads to deliver features on schedule.

Junior Full-Stack Developer

Nov 2024 – Feb 2025

Codex

- Built full-stack applications with responsive frontend design and scalable backend services.
- Used Prisma ORM for efficient, type-safe database interactions with MongoDB.
- Conducted code reviews and managed production deployments to maintain code quality.

Frontend Developer

Sep 2023 – Nov 2024

GFX Mansion

- Built responsive web interfaces using React, Tailwind CSS, and TypeScript.
- Optimized performance and cross-browser compatibility using Vite and React Query.
- Developed reusable component libraries and integrated RESTful APIs via Axios.
